

Virtual Conference Unifying Best Practices October 7-9, 2021

The Conference will be focusing on the latest advancements in the field of restricted oral tissues. The program features plenary and oral presentations covering topics of major interest to those in fields such as dentistry, lactation, or other oral sciences and will focus on unifying best practices for the assessment, diagnosis and integrative treatment of restricted oral tissues.

Top Reasons to Register

- A fantastic line-up of speakers and an engaging live program
- All sessions offer Q&A periods and will be recorded to view on demand for 3 months after the event.
- Time for networking with the global ICAP community, all hosted within an easy-to-navigate virtual platform.
- Easy access to handouts, presentations slides and other resource documents
- Continuing education credits - CERPS
- Exchange of virtual business cards to stay in touch after the event as well as a Virtual meeting hub with video calls and online messaging
- Discussion Forum and Social Feed to engage during the conference
